OUR RING SIZE GUIDE

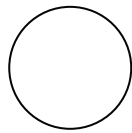

Ring size is determined by inner diameter, not circumference.

To find yours, cut a thin piece of paper and wrap it around your finger, keeping it close to your bottom knuckle. Mark where the paper meets and measure its length with a ruler.

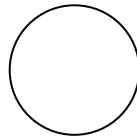

US 7 is the standard ring size. Measurements below in millimeters.

OPTION 1

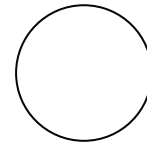

Please print this guide to 100% scaled on US letter-size (8.5" x 11") paper and match one of your rings to a circle below. The scale is correct if a credit card is the same length as the line below. You are a half size if your ring falls in between two of the circles.

US SIZE 6
16.4 mm
inner diameter

US SIZE 7
17.4 mm
inner diameter

US SIZE 8
18.2 mm
inner diameter

OPTION 2

Carefully cut out the ruler and make a small slit on the dotted line on the left end of the sizer. Wrap the ruler around the finger with the number facing out. The number that lines up with the slit comfortably represents your ring size.
